

## Insulation for Injection Moulding Machines

Made in European Union

### IZOLINE Insulation covers

Perfect saving solution for your Injection Moulding Maschine

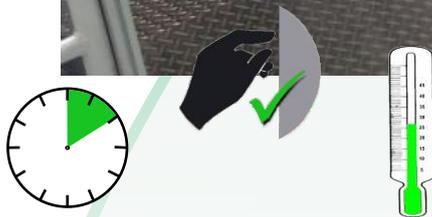

Increase energy efficiency + reduce costs

Easy and simple

### ▶ IZOLINE Advantages:

+ Cost reduction through energy saving (Reduce radiation losses by up to 40%)

+ Can be retrofitted for almost all machine types at any time

+ Shortened heat-up times and reduced switching cycles

+ Payback within a few months

+ Contact surface protection

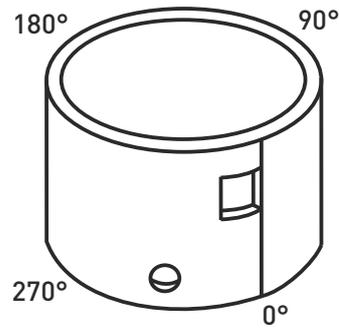

+ Less waste heat in production

#### IZOLINE insulation covers

- ▶ Quick and easy installation
- ▶ Tailor made
- ▶ Reusable
- ▶ Save energy and reduce CO2 ✓

We will send you a binding offer ➡

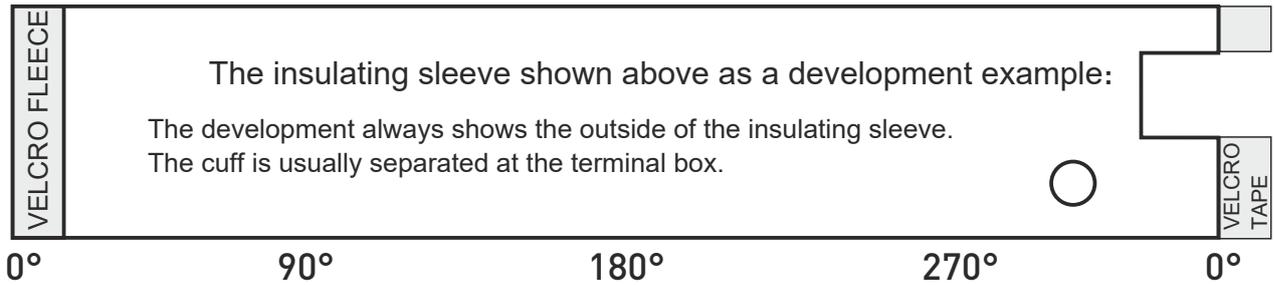

**i** Note

We only need a guide offer:

- the number of identical heating tapes
- their outer circumference or outer diameter
- the width of the heating cables
- the number of openings required (without exact position)
